Principal's message

Grassy Lake, a small farming hamlet within southern Alberta. We provide an exciting and innovative K-12 program within two different buildings.

Chamberlain School provides an excellent Early Learning to grade nine public school opportunity. Our school has a focus on: literacy, numeracy and community wellness.

Arden T. Litt Centre for Learning (ATL) provides an excellent public high school opportunity. Our school has a focus on: literacy, flexible learning environments and meaningful relationships.

A large percentage of our population come from a Low German Mennonite background. English is often not the primary language spoken at home, necessitating the need for us to have supports for English Language Learners. Some of our students are only with us during harvest season, when larger farm operations are looking for seasonal employment. We also find that a significant percentage of our Jr. High and High School students miss time at school during this time because they are working labour jobs to support their families.

We find that as students finish elementary school, we have a smaller group of students who attend junior high. Some of these families choose home schooling options, others drop out of school to support their families at home.

In order to engage our students and support the cultural background of our community, we offer an optional German program for grades 1-9 and hands-on CTF classes for grades 5-9.

We provide an Alberta Education sponsored School Nutrition Program. The aim of the program is to provide students with a wholesome breakfast and supplement existing lunches with nutritious and hearty options. This initiative supports students in both Chamberlain and Arden T Litt Centre for Learning.
